Welcome to the Current Research Information System (**CRIS**) web site. **CRIS** is the U.S. Department of Agriculture's ([USDA](#)) documentation and reporting system for ongoing and recently completed research projects in agriculture, food and nutrition, and forestry. Projects are conducted or sponsored by USDA research agencies, state agricultural experiment stations, the state land-grant university system, other cooperating state institutions, and participants in a number of USDA research grant programs. **CRIS** is a part of Information Systems and Technology Management (ISTM), Cooperative State Research, Education, and Extension Service ([CSREES](#)), and is located in the Waterfront Centre in Washington, DC.

Click on the links at left to search the **CRIS** database or to learn more about **CRIS** and its products and services.
